The Capitol riot was an Antifa op. Antifa is monitored. Trump knew. Either he is GEOTUS, VSG, or he is not. If he fails to deal with all of this, he will be imprisoned along with his entire family and he knows this. Fraud vitiates everything, including election certification. There are 2 weeks between now and the election. Now we will finally see the aces up Trump' sleeve.

No they won't. Rewatch the video of him telling everyone to go home. Look at the tweet the press secretary sent out about it being TRUMP who sent in the national guard. Trump and his fam will be fine because the guy either cut a deal with the enemy or he's been controlled opposition the entire time. Fuck it, I'll fucking say it. Go ahead and downvote/deport me.

▼ 5 Trump did not cut a deal with the enemy nor is he controlled opposition. It just appears he is losing to the swamp right now. That could be because he actually is losing or perhaps this is part of the greatest swamp draining sting of all time and it needed to go this far to expose congress and the VP.
Time will tell. 2 more weeks.

▼ 7 I've seen this, and I simply don't believe it. It's yet another shifting goalpost. The idea that he called everyone down to DC, only for the purpose of sending them home so he can follow some random part of the insurrection act in a country that is otherwise lawless...is ridiculous.

▼ 1 It makes no sense. What was the point of his speech anyway? It was a run of the mill campaign rally with a lot of bitching about the election being stolen. Not for nothing, this one and his last speech in GA were pretty flat, pretty low energy.

▼ 8 I agree. When Trump entered office, he knew it was win or die trying and that this likely extended to his family and friends. He is taking this to the maximum level of drama and is using every form of deception available, including deceiving us all, to achieve his goal of winning (for us all).

▼ 17 Same, only thing to do is kick back and hope for Hail Mary

26 ▼ I hope you are right, but I think Trump make some very serious mistakes.

Specifically, he fixed the problems, not the people. If this was a sting, the trap would have snapped shut by now.

Trump did his best, but in the end he just wasn't mean enough.

When we find Trump 2.0, he has to be meaner, angrier, and ready to go after the people killing our nation and jail them.

I will always be grateful to Trump for getting the bad guys to show their true faces, but I'll always be saddened by the missed opportunities to take them off the board.

13 ▼ I don't think Trump did know that in 2016, and I'm not sure he knows the stakes now. Remember he's surrounded by the swamp and has been for four years.

Still, I really think that in the campaign, when they went on and on about him being Super-Hitler, he really thought the democrats would calm down after the election and work with him on bipartisan issues. He had known them for years, and never really thought they would drink their own koolaid.

But they built him up in their minds as the ultimate monster, and started to believe their own spin, and then they couldn't back off.

And he might just be underestimating their crazy again. Or he'd take more aggressive action.

God I hope not. I want him to figure this out and do what needs doing.

Still, if.... Then we fight on with whatever we have.

The answer: We project our goodness onto others. And the greatest men, the geniuses, the empire builders, have the most goodness to project onto those around them.

Doesn't matter how much of a genius Trump is, how great of a 4d chessmaster he is, if he's a time traveler, etc etc... if he can't see the evil in others because he thinks that they thin' ... he does.

What you are talking about is a person that lost their emotions and had to try making artificial ones to understand people. We are talking about a person that sees everyone as a tool or an obstacle. A cold, hard, and calculating individual that has no qualms in doing an action so long as it rationally gets the objective done.

Educate yourself as to why governments and religions have historically promoted and established patriarchies before you cry bullshit. Women always care more about safety tl freedom.

And now all these politicians who call us thugs can go to their peaceful lives, and their peaceful dinners with friends and family and know they won't hear from us again.

Further, they fucked up and shot that poor girl, so she's now a martyr. Imagine the brick shitting that'll happen if in Feb they pass gun confiscations.

We're soon to start seeing these idiots getting rammed off the road coming home from the air port. There will be assassinations galore. They won't be able to grocery shop without armored escort.

-2 Good. Anyone who thinks violence will do anything positive is mentally ill. Thanks to that antifa mentality people today were besides themselves with anger and played right into the psyop. Anger is not going to solve this and of you think so ur a beta.

1 Violence is the only true power. This country was founded on the consent of the governed. That beach head has largely been eroded to nothing now and the tree of liberty needs watering again.

-1 Did you miss the false flag based on that same antifa mentality? Trump said to be non violent. I can guarantee you right now they are shilling so hard to get someone to overreact and go crazy shooting like that angry ginger in Oregon exactly like you are doing whether knowingly or unknowingly. TRUMP SAID DO NOT GIVE THEM WHAT THEY WANT BE PEACEFUL.

If you claim that Trump is going to backstab us and not do everything he can now until the 20th to save the republic then I suggest you wait until the 21st so we can atleast not forfeit the chance for that "peaceful transition" to a second presidency. Be a little more patient! I still have not wavered in my conviction that Trump will be president again its just a matter of how he gets there now and Trump as far as we know is still in the ring and ill be damned if I dont think hes about to win bigly.

I feel like any spark could just make this thing explode. I thought it was starting yesterday, but I think people were just moving their bodies to the capital in shock that Pence had betrayed them. Now people are thinking, and problem solving and charting the next moves. It isn't good. People thought 2020 was rough, I think this year will be one for the history books, one that future generations will read about and wonder what it was like.
